**ACTIVITY 1: WHAT IS STONEHENGE?**

It is one of the places visited by the main characters in the play.

Find out a bit more about this monument through this worksheet.

Stonehenge is a prehistoric monument in England located in the country of Wiltshire and is composed of a circular setting of large standing stones set with earthworks. Scientists noted that the monument was associated with burial since the very beginning.

Evidences point out that Stonehenge might have been built in five phases from 3100 B.C. through since it was produced by a culture that left no written records. Stonehenge is also associated with Arthurian legend in which the stones were used for healing purposes. The stones have been restored twice during the 20th century; once in 1901 and again in 1958. Stonehenge has been on the list World Heritage since 1986.

**ACTIVITY 2: GETTING TO KNOW NAPOLEON BONAPARTE**

Napoleon Bonaparte lived between 1769 and 1821. He was a French military leader who became famous in the French Revolution. Napoleon was Emperor of France from 1804 until 1815. During that time, he built a large empire that ruled over Europe. He is considered one of the greatest commanders in history.

Napoleon was in the French army when the French Revolution started in 1789. He amazingly became a General at the age of just twenty-four. Then he became the first Emperor of France in 1804.

Napoleon took over nearly all of mainland Europe. However, in 1815 he was defeated in the famous Battle of Waterloo and forced to step down as Emperor. The British then sent him to the island of Saint Helena, where he died six years later at the age of 51.
