THE LEGEND OF THE CRESCENT MOON

Every treasure has a price.

THE STORY

Mike's encounter with The Crescent Moon leads him far beyond the museum and into a struggle for Atlantis. Alongside Annie Bonny and John, he must face characters driven by ambition, fear and the desire for power. The search for a legendary pearl becomes a test of loyalty and identity: what are we willing to sacrifice for what we want? A dynamic musical production in English combines live performance, humour and adventure with themes that connect naturally with Secondary students: choices, greed, responsibility and the courage to define one's own path.

OBJECTIVES
